Telegram Bot API, Entry-Level Bot Development, Command Handling, User Interaction Flows, Basic Automation, MongoDB Integration

Programming:

JavaScript, C

Tools & Platforms:

Git, GitHub, VS Code, XAMPP, Hostinger, Docker (Basic), n8n Automation (Basic), MS Excel

PROJECTS

Navya Travels Website — Freelance WordPress Project

WordPress, Elementor, WooCommerce, HTML, CSS

- Developed and delivered a responsive travel website for a client using WordPress, Elementor and WooCommerce, implementing four pages, booking/inquiry functionality and an SEO-friendly site structure based on client requirements.
- Customized theme design and configured contact and booking forms to match client branding and functional needs.

React E-Commerce Application

React.js, JavaScript, Axios, Bootstrap, Tailwind CSS

- Built a dynamic product listing interface with search and filtering, integrated with a REST API via Axios.
- Implemented a shopping cart with Local Storage persistence and a fully responsive UI using Bootstrap and Tailwind CSS.

SR Khata Ledger Bot — Telegram Automation Project

Node.js, Telegram Bot API, MongoDB

- Built a two-bot ledger system (customer bot and owner bot) handling purchases, payment verification requests, and undo requests through an owner approval workflow.
- Designed MongoDB-backed models and services for transactions, payment/undo requests, and owner reporting, with tests covering totals, duplicate/conflict protection, and approval race conditions.
- Implemented owner-side notifications, reporting, and data cleanup routines with customer record preservation.

Personal Portfolio Website

WordPress, Elementor, CSS

- Designed and built a responsive personal portfolio site to showcase projects, skills, and services with a clean, professional UI.

JavaScript Product Store

JavaScript, HTML, CSS, REST API

- Built a dynamic product store with API-driven rendering, search/filter functionality, and a responsive interface.

FREELANCE WEB DEVELOPMENT

- Work directly with clients to gather requirements and translate them into responsive WordPress websites using Elementor and WooCommerce.
- Handle theme customization, booking/inquiry form setup, and SEO-friendly site structuring from initial build through delivery.

PROFESSIONAL EXPERIENCE

Back Office Executive — Ishan Netsol Pvt. Ltd.

2023 – 2025

- Handled client communication, data management, and reporting using Excel, supporting accurate documentation and internal coordination.
- Maintained accuracy and problem-solving across day-to-day operational and administrative tasks.

Life Insurance Advisor — Axis Max Life Insurance

2022

- Communicated with clients to understand their requirements and provide consultative, relationship-focused support.

EDUCATION

Bachelor of Commerce (B.Com)

2021 – 2024

CERTIFICATIONS

- Wells Fargo Software Engineering Job Simulation — Forage
- J.P. Morgan Software Engineering Virtual Experience Program — Forage
- Skyscanner Virtual Experience Program — Forage
- Web Development and React Learning Certifications
